EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Laura Hagan on 8 August 2006.

The application has been amended as follows:

In the Claims:

Claims 10, 11, and 14 are cancelled

Claim 12, line 5: --said diameters-- has been deleted and "the diameters of said projecting disc-like portions" has been inserted.

Claim 12, line 7: --end piece.-- has been deleted and "end piece; and separation areas located between said projecting disc-like portions." has been inserted.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose the claimed invention. Specifically, the closest prior art of record, U.S. Patent 3,818,911 to Fournier, fails to disclose the disc-like portions having diameters that increase in size toward the dome-shaped tip. U.S. Patent 5,407,423 to Yoon fails to disclose a dome-shaped tip and disc-like portions being separated by

separation areas. The Applicant's argument of 6 July 2006 that there is no reason to combination the inventions of Fournier and Yoon has been considered and are persuasive. The teaching of Yoon to provide diameters that increase in size toward the tip of the swab for the purpose of preventing leakage from an organ during surgery (see column 9, lines 25-30) are not applicable to the invention of Fournier. The swab disclosed by Fournier is designed for the application of a medicament, and Fournier discloses no desire to increase the absorptive qualities of the swab or prevent leakage during use of the swab. Since the teachings of Yoon do not provide an improvement to the invention of Fournier, there is no reason to combine the inventions. Therefore, the prior art of record does not teach nor fairly suggest the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to C. Lynne Anderson whose telephone number is (571) 272-4932. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tanya Zalukaeva can be reached on (571) 272-1115. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
